

## An easy-to-use time & attendance app built just for small businesses.

Empower your clients to manage their workforce, the easy way.

### Time & attendance

Easily clock in and out with geofence time tracking and auto-clock in.

### Scheduling

Create schedules in minutes with our drag and drop and auto-schedule features.

### Timesheet reports

View, approve and edit timesheet reports.

### Time off

Schedule time off and get access to reports that are readily available for viewing.

### Project checklists

Assign tasks for employees to complete during their shift.

### Team messaging

Allow your team to collaborate on projects in four languages.

### Alerts

Receive notifications for overtime, geofence alerts, task completion and late clock-ins.

### Integrations

Save time and import your payroll and accounting details.

## Do more with Timesheet Mobile.

Sync your client's accounting and payroll transactions from their favourite apps for seamless integration into their small business.

## Pricing that just makes sense.

Easy-to-swallow and fair pricing just for your firm and small business clients.

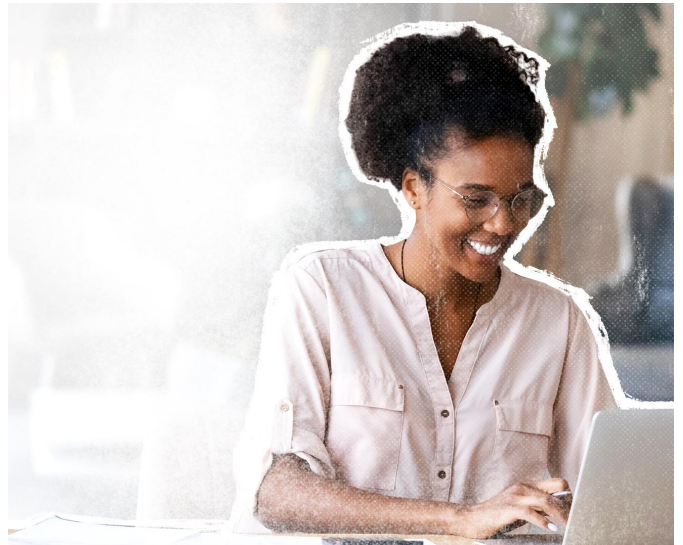

Subscription	Base fee	Cost per employee
Monthly	\$29.99	\$9.99
