

Re: Account Validation Request

To whom it may concern,

Wagepoint's Risk Operations team is looking to verify the business account information for our mutual client, in order for them to run their payroll with our company. Here's what we're looking to verify:

- The transit/routing number
- The last four digits of the account number
- That it is a business account
- The full business name, and any DBAs, if applicable
- The signing officers/signatories on that account
- The date the account was opened
- The current balance on the account

Once we receive written or verbal confirmation of the above, we can allow our mutual client to continue with the payroll process. If you have any questions or need any additional information, please feel free to reach out to me directly at any time.

Regards,

Risk Operations, Wagepoint Inc.
